

Equipment Repair Request

Vet Direct provide a full equipment repair service. Our dedicated team holds a wealth of experience to ensure your equipment is extensively tested and repaired. Repairs to a value of £100 will be carried out without quotation. This will include the inspection fee. For repairs over £100 you will be sent a quote requiring your authorisation. Items for repair under warranty will not be subject to the inspection fee.

INSPECTION FEE (£25) Upon receipt, our team will email you confirmation of its arrival and photograph the equipment. We aim to carry out an initial inspection within 5 working days. Each individual piece of equipment will incur an inspection fee.

DECONTAMINATION FEE (£15) Please ensure all equipment has been cleaned prior to sending. Items that are received visibly dirty/contaminated with blood/bodily tissue/secretions will incur a decontamination fee.

Please complete this form per piece of equipment, print and send with the item for repair, specifying the exact fault(s). Failure to do so will delay the repairs procedure.

In-house use only
